TESTING THE STRENGTH OF THE TUNNEL

The Conduit for Once Filled Flush and Full.

SUNDRY DATA PRESENTED

Maj. Knight, in charge of the Washing ton aqueduct, has made a report to the chief of engineers in regard to the operations during the month of August. In re gard to the dam and other works at Great Falls he says: "A deposit of sand at the inlet of the con

duit was removed, and a channel cut through the rock below the dam, so that the conduit between the river and the gate above the inlet to the conduit are put down. The temporary dam above the incomplete fishways backed the water up into this new channel, and therefore one panel of the dam was cut away. It may be necessary to remove a second. At the beginning of the month the river was 0.7 of a foot above the crest of the dam. On the 21st it had fallen to 0.5, where it remained the rest of the month. This height of six the rest of the month. This height of six inches on the dam corresponds to the low water stage. The water in the receiving and distributing reservoirs rose almost steadily during the month, in the former to 145.76 feet and in the latter to 145.10 feet above datum, or in the former to about nine inches and in the latter to eleven inches below the full stages. Prior to the 17th ultimo water had been flowing into the receiving reservoir through the break in the bye-conduit and through the south connection. On that date it was admitted."

Various Improvements. Maj. Knight reports that the different mains were flushed on the 31st of August. The extension of the Washington and Georgetown cable road to the union depot necessitated changes in the casings of the 1-inch air valves on the 30-inch and 36-inch mains at 34th and M streets, and of the 4mains at 34th and M streets, and of the 4inch blow-off on the 36-inch main, and the
6-inch blow-off on the 36-inch main at Potomac and M streets. These changes were
made by the railroad company. Permission
was given the Washington and Great Falls
Electric Railway Company to carry an
aerial feeder wire across the conduit road.
Agreements were made with this company
se to the structure for crossing the 12-inch. as to the structure for crossing the 12-inch, 30-inch and 36-inch mains near the Foxhall 30-inch and 36-inch mains hear the roxnain road, and as to the mainner of relaying the 8-inch drainage pipe from the pipe vault of the distributing reservoir, where this pipe passes under the roadbed and thence toward the canal.

Raising the Dam. The operations for increasing the water supply of Washington by raising the height of the dam at Great Falls are stated as follows: "Quarrying and cutting and transporting stone were continued. Of about 3,500 blocks required 322 were taken from the quarry to Great Falls, making 766 now ready to place. There are 160 more at the ready to place. There are 160 more at the quarry awaiting cutting and transportation. The erection of a cement shed and a derrick and the laying of a railroad track from the canal to the Maryland shore were commenced. A sixty-foot barge for carrying stone from the quarry was built and the stone crusher was repaired preparatory to its use in crushing stone for the concrete filling of the dam. A contract for furnishing, erecting and testing a cableway for use in raising so much of the dam as crosses the river channels was prepared and submitted to the chief of engineers for his approval. for his approval.

Damages From Overflow. On the 5th of August the Secretary of War approved the recommendation of the chief of engineers that an officer of the corps of engineers be designated to meet an engineer, to be selected by the Chesa-peake and Ohio canal authorities, to form commission to report as to the claim of the representatives of the canal company against the United States for damages against the United States for damages from the proposed raising of the dam at Great Falls. Mr. G. L. Nicolson, general manager of the canal, was selected by the canal authorities to act with Maj. H. M. Adams, corps of engineers, as the commission in this matter. The probable operations for September include the first work of raising so much of the dam as crosses.

of raising so much of the dam as crosses Conn's Island and erecting the cableway." Testing the Tunnel.

In regard to the project for testing the tunnel conduit, which includes filling the tunnel with water, Major Knight says that at the beginning of the month the conduit was slowly filling with seepage water, and at 11 a.m. August 3 the seepage water reservoir in moderate amount, and con-tinued flowing until 3 p.m. of the 9th ulti-mo, when it had risen to 54.24 feet above mo, when it had risen to 54.24 feet above datum. From this point the conduit was allowed to fill with seepage water. For the first time in its history, the conduit was completely filled (exclusive of upper ends of shafts) on the 19th of August. The highest level attained by the water was recorded at 6 p.m. August 20, when it reached an elevation of \$4.66 feet above datum, or 114.11 feet above the bottom of Rock creek shaft. At this time the pressure on the roof of the tunnel was about forty-six pounds to the square inch. During the month borings were made along the foot of the outer slope of the dam of the Howard University reservoir. These the Howard University reservoir. These and other borings will be made during the present month, and estimates will be made of the cost of completing the reservoir and of its connection with the existing conduit.

Vincen and Wm. A. Brady have given their latest success in melodrama is sufficient to arouse enthusiasm in the breasts of all true Americans. This play was produced for the first time this season in Boston, and its success from that time has been unprecedented. The production from a scenic point of view has seldom been equaled, and Manager Brady, with his usual foresight toward all that is artistic and meritorious, has engaged a company for the interpretation of the many difficult roles which comprise the best known talent in the dramatic profession. "Old Glory" will be given here with every climax, detail and effect, the same as on its original performance. The company comprises such well-known actors as Arthur E. Hanford's Starring Tour.—Charles B. Hanford, as is well known by most Washingtonians, will star during the present season jointly with Elihu R. Spencer and Miss Nora O'Brien in a repertoire of Shakespearean and other standard plays.

Mr. Hanford cwns the magnificent Booth-Barrett production of Julius Caesar. In addition to this, the company will carry new special scenery for each of the other six plays in their repertoire. The new scenery is from the brush of Thomas G. Moses, one of the best known scenic artists in America. It has been found necessary to carry four men to handle this elaborate production, and a special car will be used for its transportation. The eighteen people who will form the company have been chosen with especial reference to their resemblance to the bistorical characters they will portray, and no star or Hanford's Starring Tour.-Charles B. Hanhave been chosen with especial reference to their resemblance to the historical characters they will portray, and no star or stars presenting the legitimate drama on the road this season will have better support than Mr. Hanford, Mr. Spencer and Miss O'Brien. James Carden, who will play Brutus, Applus Claudius, Antonio and other leading roles, has been prominent in the support of such artists as Wallack, McCullough and Mrs. John Drew, and has himself starred in England and Australia. Other members of the company are George Macomber of Baltimore, who played prominent parts in Tim Murphy's company last season, and Messrs. Burt Temple and John Hoffman, both residents of Washington. Frank G. Connelly will manage the tour and will be assisted by E. P. Beebe and Burton E. Emmett. Two advance representatives have already gone "ahead of the show" to pave the way for the tour, which opens September 23 at Wilmington, Del., and they are sending back most encouraging reports as to the prospects for good business. Washington will be reached Novembers reports as to the prospects for good business. Washington will be reached Novem ness. Washington will be reached November 18, and the company will be seen here one week at the Academy of Music. Managers have been quick to recognize the "three-star combination" as a strong attraction, and the demand for time has been such that the route is already booked almost solidly up to March 25, including visits to most of the principal cities east of Chicago.

wisits to most of the principal cities east of Chicago.

The repertoire includes Virginius, the Merchant of Venice, Othello, Romeo and Juliet, Damon and Pythias, the Hunchback and Julius Caesar. Although Mr. Hanford is strongly identified with the role of Ingomar through his success in the part with Julia Marlowe, it has been decided for the present not to include the play in the repertoire.

Mr. Hanford said to a representative of The Star today: "I do not believe I am building air castles when I say that Mr. Spencer, Miss O'Brien and myself are beginning our career as joint stars with every possible prospect of success. There are unmistakable evidences of the return of the popularity of the legitimate—we have had more offers for time than we could accept, and managers all along the line are predicting a good season for our line of plays. The rehearsals are showing us that our company could not be better, that Miss O'Brien is developing more grace and talent than ever, and that Mr. Spencer, who has already established himself as a Cassius second only to Barrett, is equally strong in other roles. And then, people aren't saying nearly so much about 'hard times,' So we think we have sound reasons for feeling cheerful."

Dr. Arnold at the Soldiers' Home.-Dr. Arnold gave a concert and musical enter-tainment at the Soldiers' Home last night, which was well attended by the members of the home and their friends, Dr. Arnold's fine elocutionary power, his excellent style, whether in serious or comic recitations, and his wonderful skill as a musician, all elicited the most hearty applause from his audience, and at the conclusion of the entertainment he was waited upon by several inmates of the home, with the urgent request that he would give them another opportunity of hearing him at an early date.

THE SESSION ENDED

Good Samaritans and Daughters of Samaria Adjourn.

An Unpleasant Feature of the Closing Hours-A Disputed Claim Only Partly Adjusted.

After having been in national convention in this city for three days, the Grand Samaritans and Daughters of Samaria adjourned last night to meet in its forty-ninth annual session next year at Providence, R. I. There was a spirited contest over the selection of the meeting place. Many cities requested the lodge tommeet with them, but last night the contest narrowed down between Cleveland, Ohio, and Providence, which resulted in the selection of the latter

place. There were three sessions of the lodge vesterday and most of the time was devoted to the consideration of reports from the different committees which had been appointed to consider the work of the order. The committee appointed to devise ways and means for the betterment of the ways and means for the betterment of the condition of the order, which committee will submit its plans to the next national session, included Rev. J. Anderson Taylor of the District of Columbia, past grand collef; D. F. Batts of Virginia, past grand sire; J. H. Williams of New Jersey, past grand sire; Savine Aldrich of New York, past deputy sire.

past deputy sire.

The committee having in charge the investigation of the rumor which was cir-culated concerning the misuse of funds culated concerning the misuse of funds of the order reported that as no formal charges had been preferred against Mr. Batts, there was nothing for them to consider, and accordingly exonerated Mr. Batts from all blame in the matter. Nearly all of the grand sire's decisions affecting the good of the order were also approved

Unpleasant Incident.

The final session of the lodge, which was held last night, was a protracted one, and members. This was occasioned by the report of the committee on grievances concerning a claim in which the Eureka Lodge of this city was concerned. The decision of this city was concerned. The decision which was rendered ordered that the Eureka Lodge must pay to Mrs. Emma Thurston \$50 as the death claim due her on account of the death of her husband. Mr. Thurston was the treasurer as well as a member of the Eureka Lodge at the time of the death and it is additional by some member of the Eureka Lodge at the time of his death, and, it is claimed by some of the members, held \$67.12 of the society's funds. The lodge had no vouchers for the funds which they claimed were held by Thurston, and when the matter came before the Grand Lodge of the District of Columbia, it decided that Mrs. Thurston was not entitled to any further funds from the association as a death benefit, as the money held by Thurston at his death had not been made good. The widow of Thurston appealed from the District Loage to the National Lodge, and last night she was sustained. The decision of the National Lodge last night occasioned some stormy protests from the local members who were present. The proceedings became so turprotests from the local members who were present. The proceedings became so turbulent that the grand sire had to impose several fines before order could be restored. The discussion indulged in was of a very unpleasant character, and has created quite a break in the Samaritan ranks here. The officials of the Eureku Lodge declare that they will never pay the money which The officials of the Eureku Lodge declare that they will never pay the money which the Grand Lodge ordered, and Mrs. Julia Cross, who is the present treasurer of the Eureka Lodge, said that the lodge did not decide when the money should be paid and that the lodge would take its own time to adjust the matter. F. C. Bright, a member of the lodge, was accused by M. H. The employes in the office of the register of wills have presented ex-Register of Wills L. P. Wright with a handsome red sardonyx ring, as a slight token of their respect and esteem. A letter, signed by the employes, accompanied the ring, in which Col. Wright was thanked for his uniform kindness to and consideration of his late associates, and in which all manner of kind and complimentary things were said of him, both as a man and official. Col. Wright was delighted by the action of his former employes, and appreciated it as a most pleasant finale to his occupancy of the office of register of wills.

Wants a Divorce.

A petition for divorce from Carmelina Rocca has been filed by David Rocca. The petitioner states that they were married at Hoboken, N. J., February 13, 1871, and soon thereafter came to this city to reside. The husband charges that August 10, 1871, Mrs. Rocca willfully deserted and abandoned him, and going to New York, he says that she took up her residence there with one Gallippi Latora, or Latoro, with whom she committed adultery, and by whom she had a child, now a young woman, he asserts, of

WHOLESALE PRODUCE MARKET.

Butter and Eggs Higher-A General

The feature of the local wholesale pro duce market today is the advance in butter and eggs. In fruits and vegetables, too, prices have advanced, but in those cases the advance is a naturally expected one at this time of the year. In other products prices are about as they were a week ago. In a majority of instances the mar ket is a well-supplied one, although fruits are showing by their growing scarcity the advance of cool weather. The demand for all products is large, and the tone of the market is healthy and firm.

The advance in butter predicted some time ago was realized this week, and today butter is generally higher, certainly in fine goods, than it has been for some time. There is a stronger feeling, too, and the market is, therefore, much firmer than for several weeks. Today for fancy Elgin and other western extras 22 cents a pound are asked. Choice, 20: firsts, 18: seconds, 17. Choice bakers' stock, 12½ to 14; New York this 18 to 18: delive west. choice bakers stock, 12½ to 14; New York tubs, 16 to 18; dairy print, 16 to 18; western, 10 to 14; Maryland and Virginia creamery, 13 to 18; dairy packed, 12 to 14.

Cheese remains dull, and prices are unchanged. There is but a moderate demand for any of the grades, there being no improvement in the market. New York state full cream large, 10 cents a nound:

no improvement in the market. New York state full cream, large, 10 cents a pound; flats, 10½, and ponys, 11.

The expected advance in eggs has been realized, and today they are from one to two cents a dozen higher than last week, 14 to 16 cents a dozen being the price for best goods, the other grades being a cent or two lower. Keat or guinea stock, 6 to 8.

Poultry shows practically no change, the demand being good, the market active and prices stationary. Live spring chickens, 10 to 14 cents a pound are asked; old fowls, 5 to 10; ducks, 8 to 10, and geese, 5 to 7.

Vegetables are plentiful, as a rule, and the demand being large and increasing, there is an upward tendency in prices. Cucumbers, 50 cents to \$1.25 a box; new potatoes, \$1 to \$1.75 a barrel; sweet potatoes, red., \$1.50 to \$1.75 a barrel; eastern shore sweet potatoes, \$2 to \$2.50 a barrel; yams and haymons, \$1 to \$1.50 a barrel; beets, \$1 to \$2.50 a hundred bunches; yellow onlons, \$2 to \$2.50 a barrel; turnips, 60 to 65 cents a barrel; Virginia white beans, \$1.50 to \$1.75; black-evel news, \$1 to \$1.10 a bischel. Events. state full cream, large, 10 cents a pound barrel; Virginia white beans, \$1.50 to \$1.75; black-eyed peas, \$1 to \$1.10 a bushel; lima beans, 4 to 6 cents a quart; tomatoes, 30 to

beans, 4 to 6 cents a quart; tomatoes, 30 to 50 cents a crate.

As in vegetables, fruits are showing the effects of the advancing season, and prices are rising steadily. Fancy table apples, 25.50 to \$3 a barrel; Maryland and Virginia apples, 50 to \$1 a barrel; La Conte pears, 51.50 to \$2.50 a barrel; Bartlett pears, 50 to 60 cents a box; peaches, \$2 to \$3.50 a bushel; damsons, 3 to 3½ cents a pound; plums, 3 to 3½ cents a pound; fancy California oranges, \$2.50 to \$3 a box; Messina, \$2 to \$2.50; Valencia, \$3 to \$3.50; grapes, 15 to 20 cents a ten-pound basket; cantaloupes, 75 cents to ten-pound basket; cantaloupes, 75 cents to \$2 a barrel; watermelons, \$6 to \$20 a hun-

Beef and kindred meats are a trifle lower this week. Live cattle, 2½ to 4 1-4 cents a pound. Lambs, 3½ to 4½, and sheep, 2 to 2½. Cows with caives, \$20 to \$35. Calves, 3 to 5½ cents a regard. to 5½ cents a pound.

The steamer Samuel J. Pentz will leave on a special Sunday excursion to Chapel Point tomorrow morning at 9:45 o'clock. The boat will stop at Alexandria at 19:15, and will arrive at the Point in ample time to give the excursionists a long period of rest and enjoyment on the beautiful grounds and enjoyment on the beautiful grounds. The trip will be under the personal supervision of Capt. E. S. Randall, and every care will be taken to make it an entire success. Music will be in attendance all day, and all the amusements of the place will be in full running order. The fare is twenty-five cents for the round trip, and Hotel Belleview is prepared to furnish the best kind of service for those who may wish to spend the day on its shady porches. The return is made about 10 o'clock in the evening, giving one of the most enjoyable evening, giving one of the most enjoyable all-day excursions that occur at this season of the year on the Potomac river.

As the season is very near the end at Marshall Hall, those who wish to take one or two more trips to that noted place should take advantage of the opportunities should take advantage of the opportunities which present themselves now. Everything which tends to make life happy may be found at Marshall Hall, and as this season of the year is most delightful at the river resorts, it seems to be an ideal place to spend Sunday. The day can be made quiet or merry, just as one sees fit, and the good order of the place is never questioned, no matter what the order of the day is. Schroeder's orchestra will be on hand to furnish music during the day, giving an afternoon and an evening concert on the grounds and boat. The best of care will be taken of the patrons of the place by the management, and everything conducive to enjoyment will be poyster roasts at Marshall.

There will be oyster roasts at Marshall Hall every Sunday in October and November. Marshall Hall is as famous for its oyster roasts as it is for its planked shad, and there are many who are waiting eager-ly for the days on which the luscious bi-valve will be served in this manner.

Those who contemplate taking in the These who contemplate taking in the Atlanta -exposition, pleasure seekers to Florida, tourists and sightseers, north, south, southeast and west, would do well to consider the advantages of leaving Washington on the Norfolk and Washington Steamboat Company's steamers, "Norfolk," "Washington" or "Norfolk News." The ride to Norfolk and Fortress Monroe is a most delightful one the trip giving expenses. a most delightful one, the trip giving exquisite views of the famous Potomac river scenery by moonlight. The boats are fitted up in the finest manner possible, and every thing conducive to ease and comfort can be found on board. Connections are made at Norfolk with all railroad and steamship lines for points all over the country, the lines for points all over the country, the trip to that city by water relieving the monotony of continuous rallroad traveling. Steamers leave every evening at 7 o'clock.
